You Can Buy a Chevrolet

With a small Down Payment and the balance by
small monthly payments through the

GMAC Deferred Payment Plan

FORMED four years ago and operating since then, with marked success, both in Canada and the United States, the General Motors Acceptance Corporation is always prepared to finance the purchase of Chevrolet cars by those who desire to do so by deferred payments.

The terms upon which this plan operates are wide in range. The down payment may be adjusted to suit the circumstances of almost every buyer and subsequent convenient payments can be easily arranged. Under the GMAC Plan all freight charges and government tax may be included in the financing.

General Motors Acceptance Corporation is an international banking institution, organized, owned and operated as an independent unit of the General Motors Corporation. GMAC was organized solely for the convenience of General Motors purchasers and is able, therefore, to grant the lowest rates.

See your local dealer. He has full information regarding GMAC and can give you exact figures on the model you desire—figures that are sure to fit your pocketbook and your convenience.

Question:—First plot is without information yet (see preceding by Cullen mine). Just finished a plot day?—W. H. Buckner, Ohio.

Answer: Last year Clinton made two, dated from 1993, but in several of over thirty offers to run the mill were awarded by a state but have since been rescinded. The mill is now leasing 500,000 sq ft of 210-ton. New sources were generated by the sale of Clinton stock and development has been started on underground, carrying up 100-ton levels. Last year the spot and annual forecasts and in fact selling of 100-ton, green.

Answer—The Memorandum filed in recent Courtney is a strong company effort to get the most information as to the situation of the plant before it goes to court. The company's attorney, Mr. [redacted] of Chicago, Ill., is in court.

Spunners.—One can just see the factory owners, including the Valley Oil Co. and the Atlantic Oil Co., from their offices, the better of which are filled over the roofs of the First Bank Building. This company is offering shares in Atlantic to bank shareholders of First Bank Building. World War is a chance to get out of the oil business, says Mr. Hume, director of the company. *See page 28.*

It goes without saying that the use of a computer is not a substitute for a good understanding of the underlying principles. The computer is a tool, and it should be used as such. The user should be able to explain the results of the calculations and to interpret them in the context of the problem at hand.

A vibrant color and fierce attitude are traits in the new denim sought by Canadian women as the finishing of their homes. there are Simmons beds to fit and enhance any color scheme and add spaciousness to any chamber.

Simmons mattresses and springs, too, are built in many types and models at various prices. All are of high character and substantial comfort. Ask your regular furniture dealer to show them to you—especially the famous Simmons mattress at 25¢, for there's just the answer to the bed problem.

Exide

MADE IN CANADA
BATTERIES

Every
car owner now
can afford one

Experienced drivers consider the Exide the economical battery because it lasts so long. Yet some men, while recognizing Exide as the standard, have held off from buying because of the higher first cost.

Now, every car owner can afford one. The experienced driver for the same money, can get, in the XX type, an even better Exide, while the owner who is compelled

to consider the first cost, can now secure the old standard XC type at a price within his reach.

Long service and short repair bills make the best cost of either type—XC or XX—so low that it will astonish you.

Any reliable Battery Dealer can now sell you an Exide. Insist on having one. If he has none in stock he can get one over night from a nearby distributor.

No Need to Dig in on a Cold Morning

EVER misplace a car on a snowy morning and find the wrong doors in your garage blocked with dirt? Or struggle to open them in the face of a heavy gate? These are just two of the many troubles you avoid when the doors of your garage are the sliding, lifting type equipped with—

Slidelite Garage Door Hardware

Any style of roof will keep out the weather—any kind of building material will protect the car. But unless properly designed the garage door will give endless trouble—and even cause personal injury or damage to the car. Because garage doors are opened and closed several times a day, they are subject to a great deal of wear and tear. They must be operated with a minimum of time and effort, and wear and tear on the doors.

Slidelite equipped doors open and close with the least effort. They slide and fold inside—no need to dig in the dirt, snow, or a wide unobstructed opening. Cannot blow shut when open and are absolutely windproof when closed. Slidelite doors are easy to operate, and are absolutely windproof when closed. SEEING THE TEACHER: V. A. FEW RANDOM AND PERTINENT REMINDERS FOR PARENTS—AND ALSO OTHERS

By PANSY ATKINS

NEXT TIME YOU TRY to
see a teacher, please
remember these things:
1. Don't go to see a teacher
unless you have a good reason.
2. Don't go to see a teacher
unless you have a good reason.
3. Don't go to see a teacher
unless you have a good reason.

The teacher of Ontario continued the theme of the last issue by telling me that she had a long story to tell me about a boy who had been in the hospital for a long time. She said that she had been to the hospital and had seen the boy. She said that she had been to the hospital and had seen the boy.

There are kids around the house just as well as teachers. I have found that you can talk to a child just as well as to a teacher.

Ensures Sound Sleep

Do you enjoy a real night's sleep, waking rested and refreshed? Or do you lie awake for hour after hour, tossing restlessly, so that you rise in the morning feeling more tired than when you went to bed?

Sleeplessness is usually due to one of two causes.

The first cause is digestive. It is a matter of fact a heavy supper late at night. It is equally a mistake to go to bed hungry. In both cases the stomach is disturbed, restless sleep.

The second cause is mental. Anxiety, worry, and nervousness result in mental activity at a time when the brain should be washed and quiet. You may sound asleep yet need a light doze, which will disturb the workings of the digestive system, causing over digestive activity, and

which will bother and disturb the nervous system.

There is nothing to equal a cup of Ovaltine for the purpose. This delicious beverage is rich in the necessary food elements which soothe and rebuild the nerves. It is easily and completely assimilated. It ensures sound, natural sleep. "Ovaltine" contains the concentrated nourishment, extracted from Nature's Tender Foods—ripe barley malt, creamy milk and fresh eggs. It contains no drugs.

The Helping Hand for Housework

Your best helper for all cleaning is Old Dutch Cleanser because it is so quick and active. It lightens work, and is most economical. Furthermore — it's safe. So you may be sure that everything you clean

with it is absolutely clean and therefore hygienic and sanitary.

The secret of Old Dutch efficiency and economy lies in the character of its fine particles. They are flat-shaped, made that way by nature. Free from hard, jagged grit, which scratches the surface, grinds in the dirt, and can not clean efficiently. Old Dutch particles do not scratch; they erase the dirt. Being flat, they offer more cleaning surface, and do a greater amount of cleaning. That is why Old Dutch does more and better work than anything else you can buy.

Use it for all cleaning — floors, walls, sinks, tubs, utensils, etc., in fact, everywhere throughout the house.

There is nothing else
like Old Dutch
